EDUCATION

B.A. in Computer Science | B.S. in Business Administration, Boston University Expected December 2026
Cumulative GPA: 3.84
Certifications: Professional Scrum Master I

SKILLS

Languages: Python, Java, C#, C++, HTML, CSS, JavaScript, OCaml, Go
Frameworks/Tools: Git, Docker, Django, Flask, React

WORK EXPERIENCE

Idori LLC, Boston, MA June 2023 – Dec. 2023
Software Developer Intern

- Developed a Unity based educational game in C# teaching 4–7-year-olds about environmental sustainability, deployed on Unity Play with 100+ views.
- Collaborated with other developers via a shared repository on Github and conducting weekly Agile sprints with daily standup meetings.
- Iteratively enhanced gameplay through structured playtesting and analysis of user feedback.

PROJECTS

Gimme Cards March 2021 – Present
Full-Stack Java Chatbot

- Developed a large-scale Discord bot in Java to enable collection, trading, and pricing of virtual Pokémon cards, deployed on Pebblehost with 140+ active users.
- Built a scalable, event-driven command system with rate limiting and modular handlers to support real-time multiplayer interaction.
- Integrated the Pokémon TCG API for real-time card data, and implemented engagement tracking via Top.gg voting to grow community activity.

Blindbox Buddy October 2025 – December 2025
Full-Stack Django Website

- Architected a full-stack Django web application for the sharing of images among art communities.
- Implemented modular webpage design in HTML, CSS, and Javascript, reducing code verbosity by 200+ lines.
- Designed a backend database in Python supporting CRUD, allowing users to easily manage their images.

Uno MCTS Agents February 2026 – April 2026
Intro to AI Class Project

- Leveraged a custom API in Java to engineer various agents that play Uno autonomously.
- Applied the Minimax algorithm with unit testing to develop an initial prototype.
- Implemented Monte Carlo Tree Search with Upper Confidence Bound to enable faster runtime and more effective decision-making, increasing win rates by 40%.

LEADERSHIP & INVOLVEMENTS

Board Games Club, Boston University October 2023 – December 2025
Secretary

- Executed multi-channel event promotions (verbal, posters, social media) to drive an 80+ ticket sell-out for the flagship escape room event.
- Managed an annual single-day recruitment campaign at the student organization fair, capturing 50+ new member signups every year.
- Documented weekly leadership meetings, tracking tasks and feedback to maintain team organization.
